To Whom It May Concern:

I am writing this letter to recommend John Marcus for a position at your facility. John was a student of mine for his older adult rotation during his second semester. I feel confident that he would be a valuable addition to your staff.

John worked hard to integrate the new theoretical knowledge he was learning with his clinical experiences. In the clinical situation, he showed both compassion and commitment to his patients. He worked well with an older population. I believe John's wealth of valuable life experiences will serve him well as he begins a new career as a registered nurse.

Please feel free to contact me should you need any further information.

Sincerely,

Amy R. Morton-Miller, MSN, RN, PMHCNS-BC
College of Lake County Associate Degree Program Nursing Instructor
